The fund is managed by Capita Financial Managers Limited, part of the Asset Services Division of Capita plc.

#### Objectives and investment policy

##### Objective

The fund aims to provide positive returns by combining capital growth with the generation of some income.

##### Investment Policy

- Derivatives may be used to manage the risk profile of the fund, reduce costs or generate additional capital or income.

#### Risk and reward profile

- This indicator shows how much a fund has risen and fallen in the past, and therefore how much a fund's returns have varied. It is a measure of a fund's volatility. The higher a fund's past volatility the higher the number on the scale and the greater the risk that investors in that fund may have made losses as well as gains. The lowest number on the scale does not mean that a fund is risk free.
- The fund has been classed as 4 because its volatility has been measured as average.
- This indicator is based on historical data and may not be a reliable indication of the future risk profile of this fund.
- The risk and reward profile shown is not guaranteed to remain the same and may shift over time.
- Credit Risk: Some collective investment schemes provide exposure to fixed interest securities which are affected by trends in interest rates and inflation. If interest rates go up the value of capital may fall and vice versa. Inflation will also decrease the real value of capital. The value of a fixed interest security is also affected by its credit rating.
- Financial Techniques Impact: The fund invests in derivatives. Where derivatives are used for hedging, the risk of loss to the fund may be increased where the value of the derivative and the value of the security or position which it is hedging are insufficiently correlated.
- Currency Risk: As the fund invests in overseas securities, and collective investment schemes which give exposure to overseas securities, movements in exchange rates may, when not hedged, cause the value of your investment to increase or decrease.
- For full details of the fund's risks, please see the prospectus which may be obtained from the address in 'Practical Information' overleaf.
